

INFOSTROYER 201

CUTTING EDGE DATA DESTRUCTION

Revolutionary Cutting Technology
(Not a Disintegrator or a Paper Shredder)

The one machine that turns Paper Documents, Punched Key Tape, CD's, DVD's and Floppy Discs to DUST, exceeding government standards for those media. The SELF HEALING, ZERO CLEARANCE CUTTING SYSTEM never needs oil, expensive blade adjustments or Disintegrator Maintenance Kits. Efficient, flexible, compact, reliable – REVOLUTIONARY!

Benefits:

- One machine for ALL your Data Destruction Needs
- Destroys all forms of media without time consuming operator adjustments or the use of tools to exchange components, such as screens
- Self Healing if injured, Zero Clearance Cutting System (Never needs oil or expensive blade adjustments)
- Self Adjusting, Auto Jam Clearing
- Auto adapts itself to type and size of destruction load
- Small Desk Top and Portable configurations

High Throughput Performance:

- Punched Key Tape – up to 20 pieces per single pass or bunch feed
- CD's, DVD's – up to 720 per hour
- Paper capacity – up to 20 sheets/20lb paper per pass
- Floppy Disc (metallic hub removed) – up to 720 per hour

Privacy Act (unclassified) Destruction Capability For:

- ID Badges
- Microfilm
- Photographic Films and Negatives
- Plastic Credit Cards
- Smart Cards
- RFID Chips
- Memory Blocks

Meets or exceeds current and anticipated Official destruction requirements for:

- High Security Paper Shredder
- Punched Key Tape Shredder
- CD, CD-R, CD-RW, DVD Destruction

* Listed on current EPL for High Security Disintegrators

Specifications

| | |
|--------------------------------|----------------------------------------------------|
| Throat Width | 9" |
| Power | 115V/1/60hz/20amp |
| Weight | 71 - 75 lbs. |
| Dimensions (HxWxD) | Desk top 14"x20"x16", portable 15.5"x20"x16" |
| Cart – optional | 31.5"x27"x18" assembled, no tools req. |
| Cutting system, Zero Clearance | Single moving part, SELF HEALING |
| Jam Clearing | Manual or operator-command-automatic |
| Residue Collection | High volume external vacuum 12-15 Gal. (optional) |
| Portable Residue Collection | Internal vacuum for emergency, (external optional) |
| Residue Dimension | DUST-like particles, smallest available globally |

Throughput

| | |
|------------------------------------|-----------------------------------------------|
| Paper Capacity | Up to 20 sheets single pass, 8.5x11 inch 20lb |
| CD's, DVD's | 720 per hour |
| Punched Key Tape | Up to 20 pieces single pass or bunch feed |
| Floppy Disc (metallic hub removed) | 720 per hour (also eats plastic floppy case!) |
