

MODEL: DATASTROYER 101

SIZE: 11.5 x 12.5 x 6.5 inches (roughly, size of a stack of 3 PHONE BOOKS).

NET WEIGHT: 15 LBS.

SHIP WEIGHT: 18 LBS.

POWER: 100-130 VAC 60 Hz, 3.7 AMPERES/ 445 WATTS

SOUND LEVEL: 83 dB, A Scale, at 24" from front (worst case position).

CUTTER LIFE: Over 2,000 CD's.

APPROVALS- DOD-Approved for the following:

- 1. Compact Disks ("CD's"),
- 2. Recordable Compact Disks ("CD-R's")
- 3. Rewritable Compact Disks ("CD-RW's")

WARNINGS:

This machine DESTROYS the DISK, along with the data.
The disk is NOT re-usable after data destruction.

OPTIONAL EQUIPMENT

- 1. Reusable fabric vacuum pouch.
- Emergency DC Converter (car battery operation): Will eradicate 10-15 disks/ampere-hour of battery capacity, or about 18 disks per lb. battery weight. A small (29 lb.) car battery will do about 530 disks.
- WORK LAMP ACCESSORY: Low-energy (13w) compact fluorescent Work Lamp, detachable, swivel-mounted atop case. Will illuminate a large area.
- 220 v 50 Hz version for overseas operation (must specify when ordering)
- >110v 50 Hz version for overseas operation (must specify when ordering)

FEATURES LIST -- DATASTROYER 101

- DOD APPROVED for total data destruction on ALL TYPES of CD's: CD, CD-R, and CDRW.
- LOW COST!
- FAST! - 4 seconds total cycle time for the entire job. PLEASE compare! SMALL, LIGHT WEIGHT, DESK-TOP design
- ELEGANT DESIGN - Loaded with Features: Precision Long-Life Cutter System Precision Residue Regrinder Powerful Integral Residue Vacuum Collector/Bagger
- LOW POWER consumption- practical to use with our optional back-up battery system.
- QUIET enough for an office environment. Sound is comparable to a small vacuum cleaner...
- RUGGED NEMA 4X Fiberglass sculptured, gasketed enclosure
- SIMPLE to CLEAN and MAINTAIN.

SECURE:

- 1. Far Exceeds all requirements for destruction of the most sensitive data.
- 2. Retains inner hub IDENTIFICATION for destruction VERIFICATION.
- 3. POWER-FAILURE SAFE: If you lose electric power, you can just pull the disk out.

- 4. Simple to use for even the most unskilled operator, even under high stress conditions.

ENVIRONMENT - FRIENDLY: Makes a cool, harmless powder. No high temperatures. Just discard the bag of powder, or empty the optional fabric re-usable residue bag.

EXTREMELY SIMPLE to USE- like a CD player! No doors or drawers to open - No buttons to push - No latches, catches, levers or hasps to operate - No exposed moving parts to worry about.

FULLY AUTOMATIC: Just turn it on (or leave it "on" indefinitely-- you're only keeping the neon pilot light on!) Insert the disk. DATASTROYER pulls the disk in and completely eradicates all traces of data. It even pushes the disk out for you and turns itself off!

LOW COST of OWNERSHIP:

- 1. Long life (over 2000 disks) cutter system.
- 2. All rotating components are on permanently sealed, high-quality ball bearings.
- 3. MTTR (Mean time to repair): Approx. 30 minutes.
- 4. Rugged, long-life motors, mechanical and electrical components.
